Typical formats

- 25 castellers - compact format for tighter venues and schedules.
- 40 castellers - a larger pinya and stronger visual presence.
- Large scale - bespoke configuration for protocol, cameras or large audiences.

How it works

1. Entrance with live gralla and drum.
2. A 1-2 minute cultural introduction.
3. The main castell is built by the castellers team.
4. Smaller final pilar: guests can join the pinya under the team's guidance.
